Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **TENTH OF RAMADAN FOR PHARMACEUTICAL INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E)** (the "Parent Company") and its subsidiaries (together the "Group"), represented in the consolidated statement of financial position as at 31 December 2023, and the related consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Consolidated Financial Statements

These consolidated financial statements are the responsibility of the Parent Company's Management, as Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Egyptian Accounting Standards and applicable Egyptian laws. Management responsibility includes designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error. This responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Egyptian Standards on Auditing and applicable Egyptian laws. Those standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance that the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these consolidated financial statements.

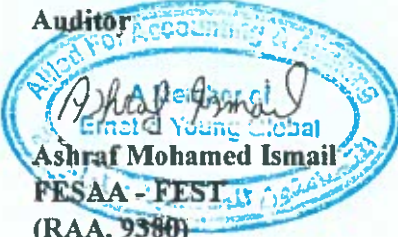

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the "Group", as at 31 December 2023, and its consolidated financial performance and consolidated cash flows for year then ended in accordance with the Egyptian Accounting Standards and the related applicable Egyptian laws and regulations.

**Auditor's Report
TO THE SHAREHOLDERS OF TENTH OF RAMADAN FOR PHARMACEUTICAL
INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E) - (CONTINUED)**

Emphasis of Matter

Without qualifying our opinion, we would like to refer to what was disclosed in Note (36) on events subsequent to the reporting date, with regard to the decision of the Central Bank of Egypt, following the financial year-end 2023, to amend the interest rates on deposit, borrowing, and discount, as well as allow the exchange rate to be determined, according to the market mechanisms, including the consequent significant future financial impacts on the Company's financial position, future business results, and equity.

TENTH OF RAMADAN FOR PHARMACEUTICAL INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2023

2- SIGNIFICANT ACCOUNTING POLICIES

2-1 Basis of preparation

The consolidated financial statements are prepared under the going concern assumption on a historical cost basis.

The consolidated financial statements are prepared and presented in Egyptian pounds, which is the Group's functional currency.

The consolidated financial statements of the Group have been prepared in accordance with the Egyptian accounting standards and the applicable laws and regulations.

The accounting policies adopted this year are consistent with the policies adopted in the prior year.

2-2 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies used in the preparation of the condensed consolidated interim financial statements are consistent with those used in the preparation of the consolidated financial statements for the year ending on December 31, 2022.

There is no change in the accounting policies used as the company did not apply the new changes in the accounting standards.

2-3 CHANGES IN ACCOUNTING POLICIES

The Prime Minister's Decision No. 883 of 2023 was issued on March 6, 2023, to amend the Egyptian Accounting Standards, and accordingly, the Introductory Appendix in the Egyptian Accounting Standards issued by the Minister of Investment's Decision No. 110 of 2015 is replaced by a Introductory Appendix to the Egyptian Accounting Standards Amendments and the Introductory Appendix 2023 Amendments.

It replaces the following standards: (10) fixed assets, (23) intangible assets, (34) Investment properties, (35) agriculture, and (36) Exploration for and evaluation of mineral resources, from the aforementioned Egyptian accounting standards, with standards Attached to the Prime Minister's decision and the Introductory appendix Amendments 2023.

Set out below are the amended standards and interpretations issued,

Amended Egyptian accounting standard 10: Fixed assets

Egyptian accounting standard 10 has been amended and reissued in 2023 and is effective for the financial periods beginning on or after 1 January 2023. Retrospective application is required with restating the comparative information.

The amendments allow using the revaluation model for the subsequent measurement of fixed assets. The gains and losses resulting from the revaluation of fixed assets are recognized within other comprehensive income and accumulated as equity in the "revaluation surplus" account.

There is no impact on the company's consolidated financial statements, as the company chose not to change the current accounting policy and did not apply the alternative accounting treatment.

Amended Egyptian accounting standard 23: Intangible assets

Egyptian accounting standard 23 has been amended and reissued in 2023 and is effective for the financial periods beginning on or after 1 January 2023. Retrospective application is required with restating the comparative information.

The amendments allow using the revaluation model for the subsequent measurement of intangible assets. The gains and losses resulting from the revaluation of intangible assets are recognized within other comprehensive income and accumulated as equity in the "revaluation surplus" account.

There is no impact on the company's consolidated financial statements, as the company chose not to change the current accounting policy and did not apply the alternative accounting treatment.

TENTH OF RAMADAN FOR PHARMACEUTICAL INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2023

2-3 CHANGES IN ACCOUNTING POLICIES (CONT)

Amended Egyptian accounting standard 34: Investment properties

Egyptian accounting standard 34 has been amended and reissued in 2023 and is effective for the financial periods beginning on or after 1 January 2023. Retrospective application is required with restating the comparative information.

The amendments allow entities to using the fair value model option for subsequent measurement of their real estate investments, with REITs required only to use the fair value model for subsequent measurement of all their real estate assets .

The increase in fair value is recognized for the subsequent measurement of real estate investment within items within other comprehensive income, rather than profits or losses, and accumulated within equity in the account of "surplus valuation of real estate investment at fair value".

There is no impact on the company's consolidated financial statements

Amended Egyptian accounting standard 35: Agriculture

Egyptian accounting standard 35 has been amended and reissued in 2023 and is effective for the financial periods beginning on or after 1 January 2023. Retrospective application is required with restating comparative figures.

Fruit plants were excluded from EAS 35: Agriculture to be under the scope of EAS 10: Fixed Assets. There is no impact on the company's consolidated financial statements.

Amended Egyptian accounting standard 36: Exploration for and evaluation of mineral resources

Egyptian accounting standard 36 has been amended and reissued in 2023, is effective for the financial periods beginning on or after 1 January 2023. Retrospective application is required with restating the comparative information.

The amendments allow using the revaluation model for the subsequent measurement of its mineral resources. The gains and losses resulting from the revaluation of mineral resources are recognized within other comprehensive income and accumulated as equity in the "revaluation surplus" account. There is no impact on the company's consolidated financial statements.

Set out below are standards and interpretations that have been issued, but remain not effective, as at the date of issuance of these financial statements.

Egyptian accounting standard 50: Insurance contracts

Egyptian accounting standard 50 "Insurance Contracts" which replaced the Egyptian Accounting Standard 37 "Insurance Contracts". EAS 50 was issued in 2023, and effective beginning on or after July 1, 2024 in Egypt. Early application of the standard is allowed

This standard defines the proof principles of insurance contracts falling within the scope of this standard, and determines their measurement, presentation and disclosure. The objective of the standard is to ensure that the entity provides appropriate information that truthfully reflects those contracts. This information provides the users of the financial statements with basis for assessing the impact of such insurance contracts on the entity's financial position, financial performance and cash flows.

There is no impact on the company's consolidated financial statements.

2-2-1 Basis of consolidation

The consolidated financial statements comprise the separate financial statements of the Parent Company and its subsidiaries. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

2-SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangements with the other vote holders of the investee
- Right arising from other contractual arrangements.
- The Group voting rights and potential voting rights.

The Group re-assess whether or not it controls an investee if facts and circumstances indicates that there are changes to one or more of the three elements of controls. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

The following steps are followed in preparing the consolidated financial statements:

- a- Eliminate the carrying amount of the Parent Company investment in each subsidiary and the Parent Company share of equity of each subsidiary.
- b- Identify the non-controlling interest in the profit or loss of the consolidated subsidiaries for the reporting year.
- c- Identify the non-controlling interests in the net assets of consolidated subsidiaries and presented in the consolidated financial statement separately from the Parent ownership interests. Non-controlling interests in the net assets consist of:
 - (1) The amount of non-controlling interests as of the original date of combination.
 - (2) The non-controlling interests' share of changes in equity since the date of the combination.
- d- Intergroup balances and transactions, revenues and expenses are eliminated.
 - The separate financial statements of the Parent Company and its subsidiaries used in the preparation of the consolidated financial statements are prepared as of the same date.
 - The separate financial statements of the Parent Company and its subsidiaries used in the preparation of the consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events with similar circumstances.

Non-controlling interests are presented in the consolidated financial position within equity, separately from the equity of the owners of the Parent Company, and the non-controlling interests share in the group profit or loss is presented separately.

2-2-2 Business combination

Accounting for business combination under EAS 29 only applies if it is considered that a business has been acquired. For acquisitions meeting the definition of a business, the acquisition method of accounting is used to account for the acquisition of subsidiaries by the Parent Company. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued, and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired, and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statement of profit or loss.

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2-3 Current versus non-current classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2-2-4 Foreign currency translation

Transactions in foreign currencies are initially recorded using prevailing exchange rates at date of transaction, whenever practical management may use fixed monthly exchange rates that are revised in case there is a significant change in the prevailing exchange rate at the date of transactions.

Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rates prevailing at the financial position date. All differences are recognized in the consolidated statement of profit or loss.

Nonmonetary items that are measured at historical cost in foreign currencies are translated using the exchange rates prevailing at the date of the initial recognition.

Nonmonetary items measured at fair value in foreign currencies are translated using the exchange rates prevailing at the date when the fair value is determined.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in consolidated statement of other comprehensive income ("OCI") or profit or loss are also recognized in consolidated statement of OCI or consolidated statement of profit or loss, respectively).

2-2-5 Fixed assets

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred, if the recognition criteria are met. Likewise, when a major improvement is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the consolidated statement of profit or loss as incurred.

2- SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

	Years
Buildings	33
Machinery and equipment	20
Transportation and dragging equipment	5-10
Laboratory equipment	10
Tools	10
Furniture and fixtures	4-10

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizing the asset is included in the consolidated statement of profit or loss when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial position date. The useful lives of machinery and equipment related to the production activity were re-estimated to be 20 years.

Freehold Land is recognized at its acquisition cost and is not depreciated.

The Group assesses at each financial position date whether there is an indication that fixed assets may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the consolidated statement of profit or loss.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of profit or loss.

2-2-6 Assets under construction

Assets under construction represent the amounts that are incurred for the purpose of constructing or purchasing fixed assets or intangible assets until it is ready to be used in the operation, upon which it is transferred to fixed assets or intangible assets. Assets under construction are valued at cost less impairment.

2-2-7 Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost.

After initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets internally generated are not capitalized and the expenditures are charged to the consolidated statement of profit or loss in the year in which the expenditure was incurred

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite live are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization expense is charged to the consolidated statement of profit or loss.

The period of amortization and the amortization method for an intangible asset with finite useful lives are reviewed at each financial position date.

2-2-8 Available for sale

These assets are measured on initial recognition of the fair value, plus the cost of the transaction directly related to the acquisition or issue of the financial asset.

After the initial recognition, they are measured at fair value, changes in the fair value other than the impairment losses and the effects of changes in foreign currency exchange rates for debt instruments are recognized within the other comprehensive income items and accumulated in the fair value reserve, and from the exclusion of these assets, the recognized accumulated profits or losses are reclassified Included in other comprehensive income previously to profit or loss

2-2-9 Inventory

The inventory elements are valued as follows:

- a) Raw materials and packing materials: at the lower of cost (using the moving weighted average method) or net realizable value.
- b) Spare parts: at the lower of cost (using the moving weighted average method) or net realizable value.
- c) Finished goods: at the lower of cost (using the weighted average method) or net realizable value.
The cost includes direct materials, direct labor and allocated share of manufacturing overhead excluding borrowing costs.
- d) Work in process: at the lower of cost or net realizable value. Cost includes direct material, direct labor and allocated share of manufacturing overheads based on the percentage of completion.

Goods in transit: at the lower of cost or net realizable value, and is recognized in the consolidated financial statements when risks and rewards are transferred to the Group which is determined based on shipping terms. Cost includes the purchase price of the materials and directly attributable expenses incurred to date.

Net realizable value is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write down of inventories to net realizable value and all losses of inventories are recognized in cost of sales in the consolidated statement of profit or loss in the period the write down or loss occurs. The amount of any reversal of any write down of inventories, arising from an increase in net realizable value, is recognized as reduction of cost of sales in the consolidated statement of profit or loss in the period in which the reversal occurs.

2-2-10 Trade and Notes receivables and other receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

These receivables are recognized initially at fair value.

After initial measurement, such financial assets are subsequently measured at amortized cost less impairment. The Group assesses whether impairment exists individually, for receivables that are individually significant, or collectively for receivables that are not individually significant.

The calculation of impairment is based on actual incurred historical data. The impairment loss is recognized in the consolidated statement of profit or loss. Reversal of impairment is recognized in the consolidated statement of profit or loss in the period in which it occurs.

2-2-11 Trade and notes payable, accrued expenses and other payables

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2-12 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate.

Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation.

Where discounting is used, the increase in the provision due to the passage of time is recognized in the consolidated statement of profit or loss.

2-2-13 Insurance

The Group makes contributions to the Social Insurance Authority calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

2-2-14 Legal reserve

According to the Group's articles of association, 5% of the net profits of the year of the parent Company based on separate financial statement is transferred to the legal reserve until this reserve reaches 50% of the issued capital. The reserve is used upon a decision from the general assembly meeting based on the proposal of the Board of Directors. The transfer to the legal reserve is made once the consolidated financial statements for the year are approved in the general assembly meeting.

2-2-15 General Reserve

According to the Group's articles of association, the general assembly meeting may decide to allocate a certain percentage of the net profits of the year to the general reserve. The reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors. The general reserve forms part of other reserves.

2-2-16 Borrowings

Borrowings are initially recognized at fair value less transaction cost. Amounts maturing within one year are classified as current liabilities, unless the Group has the right to postpone the settlement for a period exceeding one year after the financial position date, then the loan balance should be classified as non-current liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance expenses in the consolidated statement of profit or loss.

2-2-17 Income taxes

Income tax is calculated in accordance with the Egyptian tax law.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority.

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred income tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2-2-18 Dividends

The Group recognizes a liability to pay a dividend when the distribution is authorized and distribution is no longer at the discretion of the Group. As per law 159, a distribution is authorized when it is approved by the shareholders in the general assembly meeting.

2- SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2-19 Interest income

Interest income is recognized as interest accrues using the effective interest "EIR" method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability.

2-2-20 Expenses

All expenses including cost of revenues, general and administrative expenses, selling and marketing expenses, finance expenses and other expenses are recognized and charged to the consolidated statement of profit or loss in the financial year in which these expenses are incurred.

2-2-21 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2-2-22 Related party transactions

Related parties represent associated companies, major shareholders, directors and key management personnel of the Group, and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Boards of Directors.

2-2-23 Contingent Liabilities and Assets

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

2-2-24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

TENTH OF RAMADAN FOR PHARMACEUTICAL INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2023

2- SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognized in the consolidation financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2-2-25 Impairment of assets

Impairment of financial assets

The Financial assets of the Group include cash on hand and at banks, trade and notes receivable and due from related parties. The Group assesses at each financial position date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. The policy for the measurement of the impairment losses is included in respective financial assets accounting policy.

Impairment of non-financial assets

The Group assesses at each financial position date whether there is an indication that an asset may be impaired. Where the carrying amount of an asset or cash-generating units (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Impairment losses are recognized in the consolidated statement of profit or loss.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the consolidated statement of profit or loss.

2-2-26 Statement of cash flows

The statement of cash flows is prepared using the indirect method.

2-2-27 Cash and cash equivalent

For the purpose of preparing the consolidated statement of cash flow, the cash and cash equivalent comprise of cash on hand, current accounts with banks and time deposits maturing within three months from placement date.

3- SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of these consolidated financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised.

The key judgments and estimates that have a significant impact on the consolidated financial statements of the Group are discussed below:

3-1 Judgments

Revenue Recognition for sale of goods

In making their judgment, the management considered the detailed criteria for the recognition of revenue from the sale of goods as set out in "EAS 11 Revenue" including the judgement about whether significant risks and rewards have been transferred.

3-2 Estimates

Impairment of trade and other receivables

An estimate of the collectible amount of trade and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimate is performed on an individual basis. Amounts which are not individually significant, but are past due, are assessed collectively and a provision is applied according to the length of time past due, based on historical recovery rates.

Provision for sales returns

The Group's management determines the estimates provision for the expected sales returns. This estimate is determined after considering the past experience of sales returns and sales volume and expiry dates of the products sold. The management periodically reviews the estimated provision amount to ensure that provision is adequate to cover the sales return.

Useful lives of fixed assets

The Group's management determines the estimated useful lives of its fixed assets for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. The management periodically reviews the estimated useful lives and the depreciation method to ensure that the method and the period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Useful lives of intangible assets

The useful lives of intangible assets are assessed as finite. The management periodically reviews the estimated useful lives and the amortization method to ensure that the method and the period of amortization are consistent with the expected pattern of economic benefits from these assets.

Taxes

The Group is subject to income taxes in Egypt. Significant judgment is required to determine the total provision for current and deferred taxes. The Group establishes provision, based on reasonable estimates, for possible consequences of audits by the tax authorities in Egypt. The amount of such provision is based on various factors, such as experience of previous tax audits and different interpretations of tax regulations by the Group and the responsible tax authority. Such differences of interpretations may be on a wide variety of issues depending on the conditions prevailing in Egypt.

Deferred tax assets are recognized for unused accumulated tax losses to the extent that it is probable that taxable profits will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

3- SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

Impairment of non-financial assets

The Group assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and chooses a suitable discount rate in order to calculate the present value of those cash flows.

4- SEGMENT INFORMATION

Currently the Group's primary business segment is the production and selling of pharmaceutical products which contributes to 93% of total revenue and balance 7% is contributed by toll manufacturing services (31 December 2022: 91% and 9% receptively). The Group's management monitors the business under two segments, "production and selling of pharmaceutical products" and "manufacturing for others" (Toll manufacturing) for the purpose of making business decisions.

Segment performance is evaluated based on revenue and measured consistently with revenue in the consolidated financial statement.

Accordingly, the Group's revenues during the year ended 31 December 2023 were reported under two segments in the consolidated financial statements.

The Group produces and sells several pharmaceutical products and renders services as follows:

Year	<i>Services Toll Manufacturing "Domestic" EGP</i>	<i>Sales of pharmaceutical products</i>			<i>Total EGP</i>
		<i>Export EGP</i>	<i>Private sales EGP</i>	<i>Domestic Tenders EGP</i>

15-CAPITAL

The Group's authorized capital amounted to EGP 1 billion, whereas the issued and paid up capital amounted to EGP 375,000,000 divided over 1,500,000,000 shares of par value EGP 0.25 each.

Based on the decision of the Extraordinary General Assembly on October 14, 2020, the meeting of the Board of Directors held on January 4, 2023 decided to increase the company's issued and paid-up capital from 250,000,000 Egyptian pounds to 252,112,680 Egyptian pounds, an increase of 2,112,680 Egyptian pounds distributed over 8,450,720 shares, funded by the payments of the beneficiaries of the system provided that the increase is allocated entirely for the benefit of the system of rewarding and motivating the company's employees, so that the company's issued capital after the increase will be 252,112,680 Egyptian pounds paid in full distributed over 1,008,450,720 shares with a nominal value of 0.25 Egyptian pounds. The amount paid under capital increase reached EGP 2,112,680 as of 30 September 2023. According to the bank certificate issued by Arab Bank on January 9, 2023, the company's issued and paid-up capital was increased from 250,000,000 EGP to 252,112,680 EGP, an increase of 2,112,680 EGP distributed over 8,450,720 shares (Note 17).

The extraordinary General Assembly meeting held on August 16, 2023 decided to increase the paid-in capital by 127,887,320 Egyptian pounds by distributing bonus shares of 0.52253 free shares for each original share of the company's shares before the increase of 978,980,720 shares after excluding treasury shares with reparations in favor of small shareholders from the smallest to The largest has to finance the increase in shares from the company's distributable net profits (profits for the year + retained earnings) for the fiscal year ending on December 31, 2022, so the company's issued capital after the increase becomes 380,000,000 Egyptian pounds distributed over 1,520,000,000 shares with a nominal value of EGP 0.25 per share and was registered in commercial register dated September 20, 2023.

The extraordinary General Assembly meeting held on August 16, 2023 decided to Reduce the issued and paid-up capital from 380,000,000 Egyptian pounds to 375,000,000 Egyptian pounds, a reduction of 5,000,000 Egyptian pounds, by retiring treasury shares listed under shares (shareholders through public and private offering) by 20,000,000 shares with a nominal value of 0.25 per share.

The following illustrate the structure for shareholders as of 31 December 2023:

33- FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group has exposure to the following risks from its use of financial instruments:

- a) Credit risk
- b) Market risk
- c) Liquidity risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

The Board of Directors of the Group has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's senior management are responsible for developing and monitoring the risk management policies and report regularly to the Board of Directors on their activities.

The Group's current financial risk management framework is a combination of formally documented risk management policies in certain areas and informal risk management policies in other areas.

a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group is exposed to credit risk principally from its receivables from customers, notes receivable, due from related parties, other receivables, including balances with banks.

Trade and notes receivables

The customer credit risk is established by the Group's policies, procedures and controls relating to customer credit risk management. Credit quality of a customer is assessed by the management. Outstanding customer receivables are regularly monitored. An impairment analysis is performed at each reporting date on an individual basis.

TENTH OF RAMADAN FOR PHARMACEUTICAL INDUSTRIES AND DIAGNOSTIC REAGENTS (RAMEDA) (S.A.E)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Year Ended 31 December 2023

The maximum exposure is limited to the balances disclosed in note (9).

33- FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

Other financial assets and balances with banks

The Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these assets.

Credit risk from balances with banks is managed by group treasury. The Group limits its exposure to credit risk by only placing balances with international banks and local banks of good reputation, in addition, the local banks are under the supervision of the central Bank of Egypt and thus their exposure to credit risk is minimal.

The maximum exposure is limited to the balances disclosed in note (12).

Due from related parties

The Group's exposure to credit risk rises from related parties equal to the carrying amount of these balances.

b) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, such as currency risk and interest rate risk, which will affect the Group's income. Financial instruments affected by market risk include interest-bearing loans and borrowings and deposits. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Group does not hold or issue derivative financial instruments.

Exposure to interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's obligations with floating interest rates and interest-bearing time deposits.

Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings). There is no impact on the Group's equity other than the profit impact stated below.

	31 December 2023		31 December 2022	
	Change in rate	Effect on profit before tax EGP	Change in rate	Effect on profit before tax EGP
Financial assets	+8%	6,741	+1%	14,267

	-1%	2,890,029	-1%	1,158,432

The sensitivity of profit or loss and equity to changes in interest rates on the EGP has increased in 2023 compared to 2022 due to the increase in market interest rates during the period from January 2024 to the authorization date of these consolidated financial statements by 800 basis points. Refer to Note (36) "Subsequent and Significant Events".

Interest rates on credit facilities from financial institutions are shown as stated in Note (19) to the consolidated financial statements.

The sensitivity of profit or loss and equity to changes in the exchange rate between the USD and the functional currency has increased, because the Central Bank has taken some financial measures during 2023 and 2022 to reduce the impact of global and local economic conditions and the geopolitical risks facing the Egyptian economy. Among these measures is reducing the EGP, increasing the interest rate on overnight deposits and lending, and setting maximum limits on cash withdrawals and deposits from and to banks, which resulted in a decrease in foreign currency exchange rates and their availability through official channels. This caused a delay in the payment of some financial liabilities in foreign currencies, as well as an increase in the costs of managing and paying foreign currencies.

c) Liquidity risk

The cash flows, funding requirements and liquidity of the Group are monitored by Group's management. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings. The Group manages liquidity risk by maintaining adequate reserves and borrowing facilities, by continuously monitoring forecasted and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Group currently has sufficient cash on demand to meet expected operational expenses, including the servicing of financial obligations.
